

Feature	Benefit	Advantages
Our product has ...	Which ...	And that means ...
Waterproof Design	Keeps workers dry doing their work.	Your workers will be comfortable and able to work longer when it is raining and tasks need to get done.
Arc Flash Resistant	Protects workers when an arc flash is possible.	When matching the Arc Rating to the equivalent hazard, ArcLite will not ignite or break open.
Chemical Splash Protection	Protects against incidental contact with some chemicals commonly used by utility companies.	Your workers will not have to stop working and discard the rain suit just because it had a light exposure.
Extremely Lightweight	Maximizes worker comfort due to the reduction of uniform weight the body has to carry. This offers relief in hot conditions where heat stress is a concern.	Workers stay comfortable and productive in their working conditions.
Soft and Flexible	Maximizes worker movement and comfort.	Workers are able to perform the work necessary to do the job.
Designed by Lineman	Increases worker functionality and acceptance.	Garments have the features that workers need to perform their job.
Sizing options available from S-5XL and Longs and Talls	Workers can be correctly sized for rainwear that fits.	Workers are more willing to wear their rainwear and are going to be adequately protected and comfortable.
High Durability	Replace less rainwear over time.	Save money on your rainwear expenses.
High Visibility option for ANSI 107 Compliance	Protect your workers in environments that require high visibility especially in low light applications.	Safety vests do not need to be worn over rainwear to keep your workers safe and compliant.
Overall multi-hazard design combing durability and comfort	Is the proper protection and greater comfort to workers doing their jobs.	Workers will be more satisfied and willing to wear their rainwear. It will also provide a cost saving since there will be fewer replacements.

⚠ WARNING: This product can expose you to chemicals including Di-2(ethylhexyl)phthalate (DEHP), which is known to the State of California to cause cancer and birth defects or other reproductive harm. For more information, go to www.P65Warnings.ca.gov.
