

NASCO Product: **PETRO** **STORM**[™]

	Feature	Benefit	Advantages
	<i>Our product has ...</i>	<i>Which will allow you to ...</i>	<i>And that means ...</i>
1	Waterproof Design	Keeps workers dry doing their work	The worker will be comfortable and able to work longer when it is raining and tasks need to get done.
2	Flame Resistant to Flash Fire and Arc Flash	Protects workers in their environment where flame hazards exist.	Since it is dual protected, you don't have to consider which flame hazard your protected against.
3	Chemical Splash Protection	Protects against incidental contact with chemicals	You can expand the use of the PetroStorm to applications you would need other chemical garments for. One product for multiple hazards.
4	Extremely Lightweight	Maximize worker comfort due to the reduction of uniform weight the body has to carry. This offers relief in hot conditions where heat stress is a concern	Workers stay comfortable and productive in their working conditions.
5	Soft CCT Coating	Soft and comfortable to the user and reduces the heat build-up associated with other coated fabric.	Workers are more comfortable while they are doing their job and reduces the surface heat build-up, so workers don't get overheated.
6	Inherent FR Substrate	Provide a soft and very durable inherent material to workers that will ensure flame resistant protection.	You can provide a comfortable rain suit that will insure adequate FR protection for the life of the garment.
7	Sizing options available from S-5XL and Longs and Talls	Workers can be correctly sized for rainwear that fits.	Workers are more willing to wear their rainwear and are going to be adequately protected and comfortable.
8	Shoulder mounted gas monitoring tab and back fall protection access pass thru.	Provides for gas monitors and fall protection to be used in conjunction with the rainwear.	Allows oil and gas workers to do their job with accommodating necessary safety equipment.
9	High visibility yellow option for ANSI 107 Compliance.	Protect your workers in environments that require high visibility especially in low light applications	Safety vest do not need to be worn over rainwear to keep your workers safe and compliant.
10	Overall Multi-Hazard Design combining durability and comfort	the proper protection and greater comfort to workers doing their jobs	workers will be more satisfied and willing to wear their rainwear. It will also provide a cost saving since there will be less replacements.
